

Anti-Human CD185-164Dy

Catalog: 3164016B

Package Size: 100 tests

Storage: Store product at 4°C. Do not freeze.

Reactivity: Human

Clone: 51505

Isotype: IgG2b

Formulation: Antibody stabilizer with 0.05% Sodium Azide

Technical Information

Validation: Each lot of conjugated antibody is quality control tested by CyTOF® analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

Recommended Usage: The suggested use is 1 µl for up to 3 X 10⁶ live cells in 100 µl. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMCs stained with 147Sm-anti-CD20 (2H7) and 164Dy-anti-CD185 [CXCR5] (51505). Lymphocytes are displayed in the analysis.

Description

CXCR5, also known as CD185 and Burkitt Lymphoma Receptor 1 (BLR1), is a G protein-coupled seven transmembrane receptor which binds to CXCL13. CXCR5 plays an essential role in the migration of B cells to the follicular compartment in the spleen, lymph nodes, Peyer's patches and tonsils. It also plays a role in normal maturation of primary follicle follicular dendritic cells. CXCR5 is expressed on B cells and TFH cells.
