

Anti-Human CD235ab-141Pr

Catalog: 3141001B

Package Size: 100 tests

Storage: Store product at 4°C. Do not freeze.

Reactivity: Human,

Clone: HIR2

Isotype: IgG2b

Formulation: Antibody stabilizer with 0.05% Sodium Azide

Technical Information

Validation: Each lot of conjugated antibody is quality control tested by CyTOF[®] analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

Recommended Usage: The suggested use is 1 μ l for up to 3×10^6 live cells in 100 μ l. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMCs stained with 141Pr-anti-CD235ab (HIR2). Gated on CD45-low events.

Description

CD235a/b, also known as glycophorin isoform A and B, is the major sialoglycoprotein expressed on red blood cell membrane, and erythroid precursors. The HIR2 antibody recognizes this antigen on human red blood cells (RBCs) as well as on their developmental precursors.
